2-year size -----	\$1.25

Root stocks: Buds mostly on Rough Lemon and Sour, but some varieties on Grapefruit and Sweet Seedling.

Terms are 25 per cent with order and balance to be paid before order is shipped. We advise express shipment, unless for close hauls, when truck delivery is much preferable. We advise freight for short hauls only. We cut all trees back to 18 to 24 inches high, defoliate, and pack ready for shipment, unless advised to the contrary.

Place your orders early, as some varieties are always exhausted before the delivery season even begins, as we book many orders in advance for future delivery.

To out-of-state land owners we offer special service to have their land developed if they wish to put a citrus grove on it. We do not solicit, but if necessary will help you get your land cleared and ready for planting, and we will handle the actual planting of citrus grove on same for you at very reasonable cost. If you are ready to develop, get in touch with us; but we have no organization to handle in any way unless you are actually ready to plant and wish to plant citrus grove.

Make the potential value of your land real by developing it, as you will then have property worth many more times its present value and cost of developing, as a citrus grove on your land will grow and increase in value very rapidly.

Florida today is the Mecca of the United States, and all property is rapidly increasing in value, but improved property faster than undeveloped, so develop yours and cash in on it.

Yours for service,

SUNSHINE NURSERIES.
